WESTERN OFFERS WIRELESS

St. Joseph, Mo. —Oct. 31, 2005—Missouri Western State University's information technology services announces the availability of wireless network hotspots in five location around campus. Faculty, staff and students will now be able to connect to and utilize the wireless network hotspots.

Wireless connections will be available on both floors of the library in the Warren E. Hearnese Center, in the Fulkerson Center, Nelle Blum Student Union first floor lounge and the residence hall Commons Building. The hotspots will be indicated by a sign in the area.

The first time they use the wireless network, students, faculty and staff will need to register their card with the Western network, just as they would with a wired connection. Directions will be given on the screen. University-owned systems will be registered by information technology services .

For more information, contact information technology services at 816-271-4354, or go online at www.missouriwestern.edu/wireless.

—end—

Missouri Western State University is a four-year public institution providing a blend of traditional liberal arts and professional degree programs. The university offers student-centered, high quality instruction that focuses on experience-based learning, community service, and state-of-the-art technology. Western is located in St. Joseph, Mo. and is committed to the educational, economic, cultural and social development of the region it serves.
