Students are expected to read the regulations and policies in the **University Catalog**, the **Graduate Bulletin**, and the **Student Handbook** and to conform to them. The student, not the University or a member of the faculty or staff, is primarily responsible for knowing the regulations and policies, and for meeting the requirements for a degree or certificate.

ADMISSION

- Official transcript showing completion of B.S. or M.S.
- Undergraduate GPA = 3.00 or higher
- GRE score
- Approval of the Chemistry Graduate Admissions Committee
- Passing scores on sub-discipline placement exams: All students must pass a required set of sub-discipline exams to be administered in the areas of Quantitative Analysis, Instrumental Methods, Organic, Inorganic, Physical, and Biochemistry. All students must successfully pass the Organic, Quantitative Analysis and Instrumental Methods exams, and one of the three remaining areas (Inorganic, Physical or Biochemistry).
- Applicants with a GPA from 2.75-2.99 and those failing to achieve a passing score on 4 of the 6 sub-discipline placement exams may be given provisional enrollment with the requirement to successfully complete (B or better) the undergraduate course in which the substandard scores are achieved.
- A student accepted under a provisional status may enroll in the MAS professional core courses and only CHE 520, 630, and 640 until the required undergraduate deficiencies are completed.

Applicants who are not citizens of the United States must receive a score of 550 or above on the paper-based or 61 or above on the internet-based Test of English as a Foreign Language (TOEFL), unless the applicant is from a country where English is the native language or they possess a baccalaureate degree from a college or university in which the primary language of instruction was English.
