A good college dictionary and thesaurus.

Course Description and Goals: The course objectives, goals, institutional competencies, and a sample English 108 paper are available on the EFLJ Department web page:

<<http://www.missouriwestern.edu/eflj/eng108.asp#Objectives>>.

Attendance Policy:

- In order to improve student learning as well as to achieve compliance with federal financial aid policies, Western has a mandatory attendance policy for all 100-level courses.
- You will be given an excused absence when acting as an official representative of the university, provided you give prior written verification from the faculty/staff supervisor of the event.
- All other absences will be deemed unexcused. The maximum number of unexcused absences allowed for this class before the midterm report, October 18, 2006 is ONE. Thus, when you have TWO unexcused absences you will be reported to the Registrar's Office, who will automatically withdraw you from this class. The Financial Aid Office will reduce financial aid as appropriate.

Projects:

- Each student will be required to complete four projects for this class. It is an English Department requirement that the drafts of submitted materials be word-processed. For students without access to a word processor, MWSU has several computer labs on campus. Regardless of the computer used, saving each assignment on disk is essential since revisions will be made.
- Warning: Check your computer system and don't wait until the last minute to complete an assignment. Technical problems, including computer/printer malfunctions and incompatibility do not constitute a legitimate excuse for late work or unacceptable format.
- Final drafts are to be submitted in a two pocket folder, containing all pre-writing activities for the assignment. No credit will be given unless all documents, including previously marked copies, are submitted with the final draft.
- Research projects receiving a grade below a C are unacceptable. It is up to the student to schedule a conference time to discuss the paper/project and to work out a revision plan leading to the resubmission of the project.

Format:

- All papers submitted for credit are to be doubled spaced with one-inch margins.
- For credit to be given, all assignments must have a single-spaced heading in the upper left corner (name, class,

assignment description, and date of submission).

- Page numbers should be located ½ inch from the top margin in the upper right corner of each page. Student's last name should precede the page number. (This can only be accomplished by using your header option).
- To avoid papers being lost or separated, a single staple in the upper left corner is required.

Assignments:

- Assignments are due at the beginning of the class meeting.
- Students are advised to keep all materials and papers together in an organized fashion until the final grade for this class has been assigned. It will be the responsibility of the student to produce the material in question, in the event of a disputed grade.
- Quizzes, given during the beginning of the class session, will cover the readings assigned for that class period. There will be no opportunity to make up quizzes.

Academic Honesty and Due Process: Academic honesty is required in all academic endeavors. Violations of academic honesty include any instance of plagiarism, cheating, seeking credit for another's work, falsifying documents or academic records, or any other fraudulent activity. Violations of academic honesty may result in a failing grade on the assignment, failure in the course, or expulsion from the University. When a student's grade has been affected, violations of academic honesty will be reported to the Provost or designated representative on the Academic Honesty Violation Report forms.

Please see the 2006-07 Student Handbook and Calendar on page 21 for specific activities identified as violations of this policy and the student due process procedure. This handbook is also available online at <http://www.missouriwestern.edu/handbook/index.pdf>.

Disabled Student Policy: Any student enrolled in this course who has a disability that prevents the fullest expression of his or her potential to succeed in this course should talk to me as soon as possible so we may discuss the course requirements and options available.

Center for Academic Support: The Center for Academic Support provides trained tutors for students requiring additional reading and writing instruction. There is no cost to the student for using these services. The Center can be of assistance to the student in the following areas: proofreading a draft for mechanical correctness, writing a thesis statement, organizing ideas, and structuring ideas into an essay form. You are encouraged to make use of these services throughout this course.
