

Missouri Western State University

## **Children in the Workplace**

### **Employment Policies**

Approved: 06/24/2009

---

Missouri Western recognizes the importance of family and anticipates from time to time that employees may find it necessary to bring their child(ren) into the workplace. The University firmly believes that the workplace should not be used in lieu of a childcare provider. No employee may ask another employee nor may any employee be allowed to supervise, baby sit, watch, or in any manner exercise control over or be responsible for another employee's child(ren).
