

HUM 314: TECHNOLOGY AND SOCIETY FALL 2019

FACT: Technology pervades all aspects of our lives.

QUESTIONS: have we become technological creatures?

If not, is it inevitable that we will?

Do we control technology, or does it control us?

Is there now, or will there soon be, a line to draw between:
humans and machines?

Minds and computers?

Agency and automation?

What is real?

And what is virtual?

If these questions matter to you, **COME JOIN US!**

T/TH: 2-3:20

Cross-listed with:

—
Biology

—
English

—
Psychology

—
Physical Science
