I. RELATIONSHIP OF THE COUNSELING CENTER WITH THE UNIVERSITY COMMUNITY	
A	Administrative Independence and Neutrality The Missouri Western State University (henceforth referred to as MWSU) Counseling Center operates independently and neutrally on campus. As such, it is not responsible for admissions, disciplinary, curricular, or administrative decisions involving students. The Director of Counseling serves on the Campus Assessment, Response, and Evaluation "CARE" Team (formerly the MWSU Behavior Intervention Team "BIT") in a consultant capacity as related to knowledge of mental health and wellness.
B	University and Community Relationships The MWSU Counseling Center is administratively housed in the Division of Student Affairs and Enrollment Management and has an extensive network of institutional and community relationships. The MWSU Counseling Center routinely refers to and receives referrals from both campus and community medical and mental health services. Counseling Center staff work with administrators, faculty, staff, and community members to promote the goal of emotional and psychological development in many aspects of college life. The MWSU Counseling Center has a memorandum of agreement with Family Guidance Center, a community mental health agency, that via grant pays for and provides the MWSU Counseling Center with a full-time crisis clinician that is a Licensed Master Social Worker under the supervision of a Licensed Clinical Social Worker provided through Family Guidance Center.
C	Reporting Structure The Director of Counseling reports to the Assistant Vice President/Dean of Students and has routine and direct communication, meeting on a weekly basis at minimum. The Director of Counseling has biweekly communication with the Vice President of Student Affairs and Enrollment Management. Both the Assistant Vice President/Dean of Students and the Vice President of Student Affairs and Enrollment Management, as well as other senior administrative staff, are fully aware of and appropriately support the unique role that the MWSU Counseling Center plays within the institution by providing crisis intervention, individual counseling, training, and consultation within the campus community.

All supervision provided is appropriate to the level of the trainee and in accordance with accreditation standards, state licensure laws, academic program rules, and staff supervision experience.

III. ETHICAL STANDARDS

A Selection of Staff and Training on Policy/Ethics
 The MWSU Counseling Center carefully selects hires in all professional and administrative positions and ensures thorough training regarding appropriate policy and procedures for the MWSU Counseling Center and the university overall.

B Confidentiality of Counseling
 All MWSU Counseling Center professionals are cognizant of ethical principles, relevant statutes, and local mental health guidelines that stipulate the limits of confidentiality. The confidential nature of the counseling relationship entered by MWSU Counseling Center professionals is consistent with ethical standards and with local, state, and federal guidelines and state statutes. Information is only released at the request or concurrence of a client who has full and informed knowledge of the nature of the information that is being released, or except as required by law. Appropriate information is released selectively and only to qualified recipients. Instances of statutory limits to confidentiality and other appropriate restrictions are clearly articulated in the intake paperwork that each student signs off on when beginning counseling sessions.

The Director of Counseling has access to university legal counsel when necessary and is well-informed regarding legal issues. Staff members maintain strict adherence to the ethical standards of their profession and licensure/certification requirements. University operating procedures are congruent with confidentiality standards and in no way abridge or contravene an individual staff member’s ethical obligations and privileges.

C Imminent Danger
 MWSU Counseling Center policy, legal requirements, and professional guidelines inform efforts to promote safety and provide for appropriate notifications if the condition of a client is indicative of clear and imminent danger to self or others.

D Psychological Tests
 While the MWSU Counseling Center does not provide psychological testing as part of our services, if such services were to be provided in the future, procedures regarding the preparation, use, and distribution of psychological tests would be consistent with professional standards.

E	<p>Research</p> <p>While the MWSU Counseling Center does not conduct research, if research were to be conducted, standards regarding research with human subjects would be maintained and review procedures for proposed research would be established to ensure that research efforts would not interfere with service delivery responsibilities of the counseling center. Additionally, any research project that would be undertaken would be proposed to the Missouri Western State University Committee on the Use of Human Subjects in Research (MWSU CUHSR) and would go through the appropriate channels of approval and execution.</p>
F	<p>Case Records</p> <p>Systematic case records are maintained as required by professional standards and applicable statutes. The record includes all pertinent clinical documentation, such as: intake information, progress notes, etc. The MWSU Counseling Center utilizes Titanium Schedule as its electronic records management system, and as such, confidentiality of data files is ensured through Titanium and is secure and accessible to appropriate staff members. Confidentiality and appropriate handling of information and records are reflected in the collection, storage, classification and maintenance of the data, administrative security, and in the dissemination of information regarding clients.</p>
G	<p>Disposition of Records</p> <p>Procedures for the disposition of client and agency records for the MWSU Counseling Center are consistent with professional standards, college and university guidelines, and relevant statutes. The complete record is maintained for a minimum of 7 years from the last date of service.</p>
H	<p>Access to Records</p> <p>Access to client records is limited to appropriate MWSU Counseling Center personnel. Each staff member is provided with an individually identifiable login to access client records in Titanium Schedule, allowing for monitoring and managing against inappropriate access. An informed, signed release of information is obtained from the client before records or other confidential information can be shared with any other individual within merged entities, campus departments, or outside agencies.</p>
I	<p>Shared Electronic Records System</p> <p>The MWSU Counseling Center is not a merged entity and does not share its electronic record system.</p>
J	<p>Regulatory Awareness</p> <p>MWSU Counseling Center staff members are knowledgeable about and function in a manner consistent with relevant civil and criminal laws. They are aware of the obligations and limitations imposed on the institution by national, regional, and local constitutional, statutory, regulatory, and institutional policy.</p>
K	<p>Technology</p> <p>MWSU Counseling Center staff demonstrate a basic understanding of technology and receive appropriate training prior to adopting any modern technology for use. MWSU Counseling Center staff rely upon non-mental health professionals to provide technical assistance. Consultation with MWSU Technology Services is utilized to ensure that the technology used allows services to be delivered in a secure and ethical manner. Professionals providing technical assistance must be given training concerning issues regarding confidentiality and must sign a confidentiality agreement.</p> <p>(III.K.1). Computerized client data such as case records are secured in such a way to prevent unauthorized access. Prior to March 2020, Titanium Schedule</p>

was never accessed remotely, nor was counseling conducted remotely. When MWSU Counseling Center staff worked remotely due to COVID-19, they accessed Titanium via a Virtual Private Network (VPN) and used Google Meet for video sessions. HIPAA compliance for Google Meet was ensured through MWSU Technology Services signing the Google Workspace HIPAA Business Associate Addendum on behalf of the institution and the MWSU Counseling Center. No student identifying or mental health information was saved onto portable devices.

(III.K.2). Electronic mail (e-mail) is not used to transmit confidential information. Students are informed that e-mail communication cannot be viewed in a confidential manner and that in the event of an emergency, emergency services (911) should be contacted.
